

EPA Media Release

No smoke advisory issued for Hazelwood open cut mine fire

1800 Sunday 16 March 2014

EPA Victoria's recommendation not to issue a smoke advisory for Sunday in the Latrobe Valley remains in place. Significant levels of smoke are not expected in any populated areas over the next 24 hours.

Some smoke may reach parts of Morwell if winds become light and variable on Sunday night, but the risk of this is relatively low.
